

# DMI's new Operation Center

# Why

- Security audit by EASA 2016 had findings
- Statens IT
- Upgrade IT
- Modern operation center

# Work better as a team

# Practical stuff

Project started spring 2018

- Sound -> we are moving in 2022....
- Inspiration tours to others authorities
- Screen wall
- Single/easy sign on  
(fingerprint, face recognition)

DOIT – not so easy.....

# Timeline

Spring 2019:  
Greenland Ice  
Service

September 3rd:  
Forecasts and  
warnings

October 1st:  
Training  
facillities for  
new forecaster

Spring 2020:  
Military Service

July 1st:  
Operation  
center in Nuuk

# What to look out for

- Have a long period of parallel centers – so the employees can test it several times
- That your system is easy to access especially at changes of shifts
- Have a project manager and dedicated testers
