

Checklist

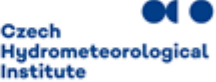

Please remember: Storms will be named by FU Berlin anyway, so in case of doubt no Storm Naming procedure will be necessary and Storm Naming is not a competition

Checkliste Storm Naming (kompakt)

Verbreitet Unwetterwarnungen Orkan (evtl. +Regen/Schnee) ausgegeben

Tief entwickelt/vertieft sich erst so richtig über Deutschland

MvD Ordner checken, ob Sturm bereits international benannt

Falls nicht, kurze Infomail an storm-naming-central-group@dwd.de und ebenfalls betroffene Dienste außerhalb der Central Group, dass man plant, Sturm international zu benennen

[Formular](#) ausfüllen, Name der FU Berlin von wetterpate.de übernehmen und anschließend an stormnaming@eumetnet.eu senden

Sturm ist nun international benannt

MvD Ordner checken, ob Mail rausging

erledigt

MVD durchsuchen | Aktueller Ordner

EUMETNET STORM NAMING - Central Med. Group (CMG) - STORM T...

Dear all,
Please find attached the storm naming form.
A coordination form has been produced by IHMS Montenegro for the storm 'FOBC'.
Have a nice weekend to all, I will certainly have a lot of work.
Best regards
Branko Micev, meteorologist, weather forecaster
IHMS Montenegro

Discussion

- **How to deal with cold spells/heat waves?**
 - **Nothing to name in analyzed weather charts**
 - **Confusion caused by private weather companies in Italy giving numerous names for heat waves (Cleon, Cerberus, Charon)**
- **Remember sharing naming lists for the upcoming season 2023/24**
 - **updating the form**
- **Keeping names simple and easy to pronounce**
- **Something else?**

Dear fellow Storm Naming colleagues,

Below is the 2023/2024 list that the SW group (IPMA, AEMET, MétéoLux, RMI, Météo France) wishes to adopt for :
start of season on September 1, 2023
for external communication in August.

Unless one of you submits a "strong" request by the end of July, for a name that could pose a problem, this will be the list adopted.

Yours sincerely

on behalf of SW Group,

Bruno Gillet-Chaulet
